Newly submitted claims 95-170 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 95-134 are directed to a prepared food which has a substantially broader implication than cholesterol free margarine and would require a substantially new search. Margarine is classified in one or two subclasses within class 426 while food, generally, includes almost all of class 426. Claims 135-170 are directed to a method of aiding a person to increase the HDL concentration and the HDL/LDL concentration ratio in serum, which falls into a different class altogether and certainly does not include margarine, per se.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 95-170 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claims 50-94 are allowed.

There is no suggestion in the claims of Sundram to select a fat with the particular ratio of polyunsaturated fatty acids to saturated fatty acids that is shown in the claims. The newly cited prior art to Rule (either patent) shows

a blended fat composition that does not appear to have the specific ratio of polyunsaturated fat to saturated fat that is shown in the claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
